## Surnames you are researching:

CGSI has been collecting member surnames for years, along with data on the village, town, or district of origin. This surname information will soon be available to members on our website. By using this resource, you may be able to locate long-lost relatives locally or in their ancestral area. You may submit as many names as you wish and please update them as new names are found or if you find that corrections need to be made.

**CGSI Disclaimer:** By entering your surnames into this database, you are granting access to your home address and email address to fellow members whose own search results in a hit on one of your names. Sharing contact info with fellow members is necessary to determine any relationship.

Once a membership is activated, the member can enter their surnames directly into their My Surnames section on our website (preferred method). Another option is to enter them below.
